top quality for marching

*Shells - The heartbeat of marching drums*  
*"It's the shell that stands for the strong heartbeat of your drum."*

**Plywood Impact** *A really impact in sound and appearance!!*  
 These magnificent shells are made from a combination of first choice Beech and Ocumee. The tone and resonance of these shells is in a class all its own.

**Finishes**  
 HPL | The drum shells are covered with a durable high pressure laminate available in different colours and designs.

**Custom Finishes**  
 Shells can be finished with a special cover material at your choice.

**Aluforce** *The ultimate balance of power and projection!!*

**Ultra light weight**  
 Specially designed for marching percussionists because of the extreme lightweight and the sound aspects. Huge projection and full resonance.

**Finishes**  
 The shells can be finished in a numerous scale of colours and designs.

All drums are available in both Plywood Impact and Aluforce features.

**Strainers**  
 6 different snare drums strainers to choose from. The strainers are fully adjustable. Special attention needs the UCS snare strainer. It just adds a lot in playing your instrument!

**XS - External Snare Strainer**  
 Attached to the bottom hoop, functioning outside the shell. Both height and tension fully adjustable.

**TS - Internal Top Strainer**  
 Attached to the collar or mounted in the drum shell depending on model of snare drum. Fully adjustable.

**TO - Throw Off Strainer**  
 Mounted on the tube lugs of our UTS series. No attachment to the shell. Fully adjustable. Individual snare tuning is a standard.

**FS - Fixed Top Strainer**  
 This outstanding Fixed strainer is fully adjustable. Less material, less weight! Only mounted on the famous UFI Vortex snaredrums.

**SO - Snap On Strainer**  
 Simple and precise. Snare tension can be adjusted.

**UCS - Ultimate Comfort Strainer**  
 Special designed slide extrusion profiles are used to manufacture the most innovative snaredrumstrainer ever been constructed. Precise 3-D machining did result in this magnificent product. Fully adjustable.
